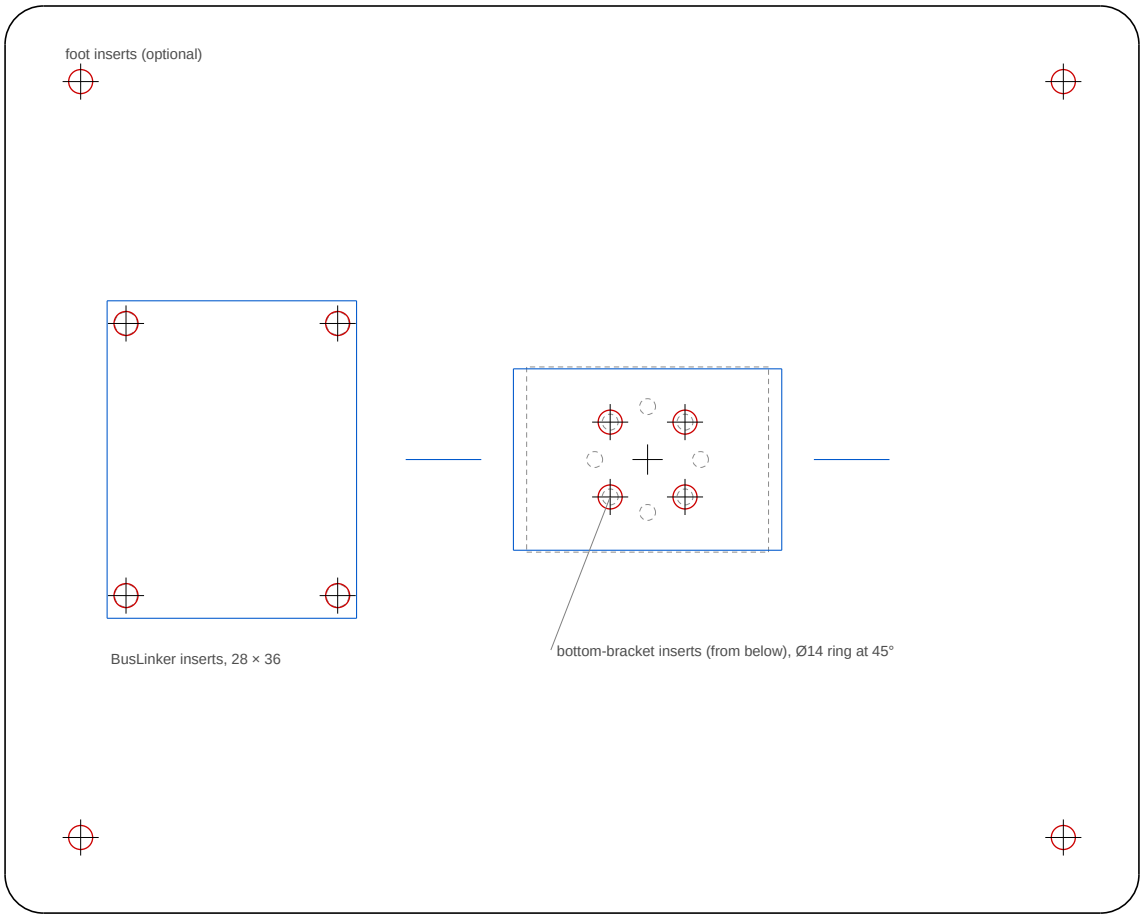
ActivityTestStand - teststand-base-plate - 1:1, 1/8" acrylic

Print at 100% (Actual size, no fit-to-page). Check both scale bars before using.



100 mm

4.000 in

- black: plate outline and 2-56 clearance holes (cut to size)
- red: insert holes at final 1/8" (laser 0.118", then drill)
- blue: engraved placement outlines and the tilt axis
- grey dashed: the hardware, for comparison (bracket ring Ø2.1, servo footprint, BusLinker Ø3 holes)

Origin cross (0, 0) is the servo / bracket centre. x runs along the tilt axis. From Mechanical/ActivityTestStand/teststand.py.
